PROFILE SUMMARY

Senior Full Stack Mobile Developer with 6 years of experience designing, building and shipping production-grade mobile applications with Flutter and Laravel. Has published 10+ apps on Google Play and the App Store across on-demand services, enterprise operations, e-commerce, ticketing and business automation. Strong in scalable app architecture, clean and intuitive UI, and integrating complex backend systems. Works effectively in fast-paced environments, collaborates closely with product, design, backend and QA teams, and consistently delivers reliable solutions within tight deadlines.

WORK EXPERIENCE

Senior Flutter Developer

Pingsys - Cairo, Egypt - Dec 2023 - Present

- Lead the development of cross-platform Flutter apps for enterprise operations and on-demand service platforms, from architecture to store release.
- Build scalable, maintainable code with clear structure, reusable components and consistent state management.
- Integrate REST APIs, Firebase services and push notifications with Laravel-based backends.
- Own the release cycle on Google Play and the App Store, monitor the apps in production and resolve issues reported by users.
- Collaborate with cross-functional teams to define, design and deliver new features.

Senior Flutter Developer

Teleoceans - Cairo, Egypt - Feb 2023 - Oct 2023

- Developed and published business and ticketing applications on Google Play and the App Store.
- Implemented clean, responsive UIs from Figma designs and connected them to backend services.
- Monitored the applications, fixed bugs and improved performance based on user feedback.
- Worked with designers, backend developers and QA to ship features on schedule.

Flutter Developer

We Bring Company - Cairo, Egypt - Sep 2021 - Dec 2022

- Built and maintained Flutter e-commerce applications integrated with WooCommerce and REST APIs.
- Created efficient services and improved the monitoring and modification of application data.
- Monitored the applications and solved problems faced by users.
- Collaborated with cross-functional teams to define and design new features.
